

MICRONUTRIENT FERTILIZER

Plant required about 16 types of nutrients for their growth, out of which C H O & Cl are made available by air & water but all other elements has to be made available by soil which are N.P.K.[primary] Ca, Mg, S[secondary] Fe, Zn, Mn, Cu, B, Mo [Micronutrient]. It is also scientifically proved that each of the nutritional element is essential & has it's exact proportion in different crops. Therefore for higher yield it is to be given balanced nutrition to the plant. Each State Government has made rigorous study on nutrient levels in soil & recommended two grades for multi Micronutrient mixture & separate individual micronutrient. R.B.Herbal Agro is producing with its state of art technology a desired grades of Micronutrient & enable to yield maximum availability of nutrient to various crops.

ARKOMIN [Multimicronutrients]

Soil application

M. S. Grade No.1 powder formulation.

Contents (i.e In percent by w/w)

- Fe.2% Mn. 1 %.
- Zn.5% Cu 0.5%.
- B. 1.0% Mo. 0.0%

Dose

- Vegetables – 10 kg per acre.
- Grapes, Pomgranates - 20 kg per acre.

- Banana, Sugarcane 20 kg per acre.
- All other seasonal crops 20 kg per acre.

Availability

10 kg bag, 50 kg bag.

ARKOMIN [Multimicronutrients]

Foliar application

M.S Grade No.2 powder formulation.

Contents(i.e. In percent by w/w)

- Fe.2.5% Mn. 1.0%.
- Zn.3.0% Cu. 1.0%.
- Mo. 0.1% B. 0.5%.

Dose

2.5 gm per liter of spray solution.

Compatibility

It is compatible with most of the insecticides and fungicides.

Availability

½ Kg Box.

ARKOMIN GOLD **[Multimicronutrients Chelated]**

Foliar application.

M. S. Grade No.2- Special formulation with chelating agent & Amino acid.

Dose

1 gm per liter of spray solution.

Compatibility

It is compatible with most of the insecticides and fungicides.

Availability

250gm box.
