

FUNTA

[BIOSTIMULANT]

Funta is unique formulation of natural derived amino acid L-cystein derivative & folic acid based biostimulant. Funta enhances all biochemical reactions in the plant cell. It induces flowering & prevents flower drop. It increases fruit size & weight. It improves resistance against infection. It improves draught resistance.

Contents:

- N-acetyl Hydroxyprolin:- 5 %.
- Folic Acid - 1 %.
- Aqueous buffer with other ingredients Q.S to make 100%

Benefits:

1. Induces flowering and reduces flower drop.
2. It enhances cell division and cell elongation leading to higher growth of plant and fruits.
3. Improves process of photosynthesis.
4. Improves shelf life of fruit.
5. Improves seed germination.
6. Increases resistance to stress conditions.
7. Improves profitability.

Recommended crops:

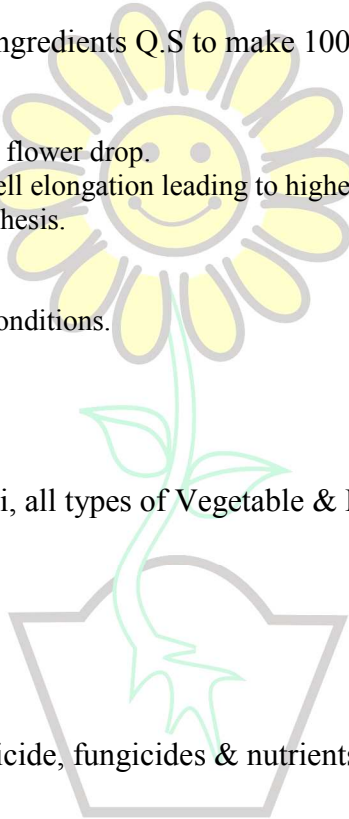

Grapes, Pomegranate, Banana, Chili, all types of Vegetable & Horticultural crops.

Dose:

0.5ml per lit of spray solution.

Compatibility:

It is compatible with most of insecticide, fungicides & nutrients solutions.
