

G – In

G.A. Booster

G-In is a unique formulation aimed to enhance the activity of Gibberellic Acid and helps to absorb in grapes and other crops. Gibberellic acid are very sensitive hormones, requires critical environment to exhibit its maximum activity. G – In has a inbuilt property to indicate exact pH value by sudden change in colour, hence we can add exact amount of Gibberellic Acid in the solution.

Contents:

Organic Acid	:	20% w/w
Emulsifier	:	2.5% w/w
Aqueous Buffer	:	Q.S to make 100%

Direction to Use:

- 1) Take required quantity of water to be used for G.A application/dipping.
- 2) Add slowly G – In while stirring until the colour changes from colourless to light yellow & then to light orange pink which is the optimum concentration of G – In for enhanced activity of G.A.

Note: Use required G.A. stock solution as per your need.
