

# NOBLETON

## (Plant tonic)

Nobletone is a unique formulation developed by our in house R&D technology. It is a amino acid based plant tonic, provides all required nutrients & essential naturally available biochemical to plants. Nobletone enhances all biochemical reactions in the plant cell leading to higher vigour, it prevents flower drop. It increases fruit size & weight. It improves resistance against infection. It improves drought resistance.

### Contents

Amino acid, Protein Hydrolysate (enzymes, precursors of hormones derived from plant & animal origin & essential nutrients in organic form) : 12% w/w  
Carrier (water) : Q.S to make 100%

### Benefits:

1. Nobletone enhances cell division and cell elongation leading to higher growth of plant and fruits.
2. It helps to increase chlorophyll concentration in the plant leading to higher degree of photosynthesis.
3. It improves stress resistance.
4. It improves flowering and reduces flower drop
5. Improves yield and keeping quality of fruits, vegetable and other perennial crops

### Recommended crops:

Grapes, Pomegranate, Banana, Chili and all types of Vegetable & Horticultural crops.

### Dose:

2 ml per lit of spray solution during growth phase and flowering stage of the crop.

### Compatibility:

It is compatible with most of insecticide & fungicides & nutrients solutions.

### Note

It is ecofriendly, residue free, non-poisonous & safe to handle.
